

Magic Moon Moments

Halo of light,
eerily shimmering above
while playing hide n' seek
and hovering
in a star-studded sky...
dancing behind
a lone silver fir
with outstretched arms

I gaze at this crystal delight
that teases with each modest move;
telling my fortune,
lighting my darkness,
canceling the shadows
for a trace in time;
then slipping into hiding.
taking repose,
leaving behind
its heavenly aura...
reminding me of

Magic Moon Moments

on this evening so still
